

Affiliate Angel

How Does it work?

An Affiliate link works by setting a cookie in the browser of the user clicking it, before taking them to whatever the destination for the affiliate link is. When the customer who clicked the link comes to opt-in to a List or Purchase a Product, the cookie will let us know that they were referred by an affiliate, and which one.

What Do I Have to Do?

Well if you love a particular course or service then we'd love you to shout about it to your audiences. So there are lots of ways you can do this...in a newsletter to your network with the affiliate link. Or on social media, especially whilst we are doing a launch or special event. Don't forget your special link (which you can get from the affiliate angel area on the website....Remember you must use your link otherwise the final payment won't be attributed to you.

How Do I Get Paid?

Affiliates get paid a percentage payment on the course promoted. At the moment we have that set to 20%.

When you register you will be asked to provide a paypal payment address. Any affiliate payments will be made to that account. We usually do this on a monthly basis. You can check your account at any time to see where you are at in any particular month.

How Do I See What I've Earned?

Log into your account from the email you receive when you are approved. This will take you to your dashboard and shows any referral funds you've received when someone signs up with your link.
